

Precious little friends

A close-up photograph of a person's hand reaching out to touch a stalk of grain in a field. The scene is bathed in the warm, golden light of a sunset or sunrise, with the sun low on the horizon, creating a soft, hazy glow. The hand is positioned in the lower right, with fingers gently touching the grain. The background is filled with tall, thin stalks of grain, some in focus and some blurred, creating a sense of depth and texture. The overall mood is peaceful and natural.

Tutta la nostra attività si ispira a valori di eccellenza, genuinità e innovazione, e persegue un unico, grande obiettivo: il benessere dei piccoli animali da compagnia. Da questo nascono le nostre linee PADOVAN, che abbiamo sviluppato nel tempo sulla base delle conoscenze scientifiche e delle competenze di allevatori ed esperti, per assicurare ai nostri clienti il meglio per l'alimentazione e la cura dei loro animali domestici.

Every aspect of our business revolves around the cornerstone values of excellence, genuine goodness and innovation; everything we do, we do in pursuit of one overriding goal: happy, healthy pets. This was the thinking behind our PADOVAN lines, which we have developed over time based on the scientific knowledge and skill of breeders and experts, to ensure we give our customers only the very best products for keeping their pets fed and cared for.

Precious little friends

Lo splendore dei piumaggi colorati,
il canto festoso che si modula nell'aria
dal sorgere del sole,
la vivacità dei movimenti sono i segni
del benessere degli uccelli, abitanti festosi
delle nostre case e dei nostri giardini.

Per loro abbiamo studiato
una gamma completa di prodotti
per un'alimentazione equilibrata e ricca,
proprio come accade in natura,
dove ogni stagione dell'anno
e ogni fase di vita, dal pulcino all'adulto,
richiede una nutrizione specifica.

Brightly coloured plumage, joyful birdsong filling the air the moment
the sun comes up and lively flutterings are sure signs that the cheerful
feathered occupants of our homes and gardens are happy and well.
We have designed a comprehensive range of products just for them to
provide a rich, balanced diet, just like they would find in nature, where
each season of the year and stage of life - from chick to adult - has
specific nutritional requirements.

Precious little friends

Il loro ambiente è l'acqua,
sinonimo di vita e prosperità.
Contemplare un acquario di pesci o
tartarughe ci ricorda che il tempo inoperoso
è di grande valore, ci insegna a dimenticare
la frenesia e a riscoprire la serenità del
mondo subacqueo, dove i rumori
sono attutiti e i movimenti sono armoniosi.
Anche lì, però, il momento del pranzo
è l'occasione per animare la giornata,
lasciando ogni indugio e affrettandosi
a raggiungere i golosi alimenti
della nostra gamma, ideati per il benessere
degli animali acquatici.

Their natural habitat is water, synonymous with life and prosperity. Gazing at a tank of fish or turtle aquarium reminds us that it is crucial to switch off once in a while, it teaches us to forget the hectic pace of life and rediscover the peace and calm of an underwater world inhabited by muffled noises and harmonious movements. Even here, though, feeding time whips up a frenzy of activity as the occupants drop whatever they are doing and rush to reach the yummy food from our range, which has been designed to keep aquatic animals happy and healthy.
